Subject: Construction Update

Dear Resident,

Look Back

KR Swerdfeger has started the upgrades to the water main on Crystal Park and completed the sanitary sewer main replacement.

Current

KR Swerdfeger is continuing the work on the water main and tying in the sanitary services into the new sanitary main. There will be some periods of lane closures and service interruptions during this construction.

The notifications have been sent out for the Washington property owners to notify them of the schedule change.

Look Ahead

The next street to be worked on will be the Washington Ave. sanitary sewer main. It was anticipated that Washington would start in the middle of November, but the revised schedule anticipates the first week in December.
